	easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.
Acute Exposure	Irritation to respiratory tract. Irritation or burning sensation to eyes. Prolonged or
Symptoms:	repeated contact with skin may cause skin irritation. Ingestion of product solution
	may cause irritation of the gastrointestinal tract to include nausea, vomiting and
	diarrhea. Potassium thiosulfate is considered to have a low toxicity to humans.

	SECTION 5. FIRE FIGHTING MEASURES	
Extinguishing	Not Flammable. Use extinguishing media appropriate to surrounding fire. Use	
Media:	water spray to keep containers cool to avoid rupture from thermal expansion.	
Specific Hazards:	This product is an aqueous mixture which will not burn. When subjected to	
	extremely high temperatures, it may release sulfur and oxides of sulfur and	
	potassium sulfate.	
Protective	Wear self-contained breathing apparatus (SCBA) and full protective gear. Avoid	
Equipment and	inhaling combustion products.	
Precautions for	Fire run-off should be contained to prevent possible environmental damage.	
Fire-Fighters:		
NFPA Rating:	Health: 1, Fire: 0, Reactivity: 0	

	SECTION 6. ACCIDENTAL RELEASE MEASURES
Precautions:	Isolate area. Keep unnecessary personnel away. Avoid splashing or spraying.
Protective	Impervious gloves (rubber or neoprene), Long sleeved clothing.
Equipment:	Chemical splash-proof goggles, face shield
	Chemical resistant apron and/or rubber boots may be needed.
Containment:	Stop flow of material if safe to do so. Dike area with diatomaceous earth or sand
	and maximize recovery.
Clean Up:	Pump into a suitable tank or absorb with diatomaceous earth or sand. Sweep up
	and place into suitable containers for agronomical land application at
	recommended rates or dispose of in accordance with local/regional/national
	regulations (See Section 13 of SDS).

SECTION 7. HANDLING AND STORAGE	
Precautions for safe handling:	Avoid contact with skin and eyes. Avoid inhalation of vapor or mist. Do not eat, drink or use tobacco products when handling this material. Apply product in open areas. Keep away from children and pets. Do not contaminate feed, seed or any

	water sources. Launder work clothes frequently and separate from other laundry.
Conditions for	Store in a well-ventilated, cool, dry place, away where freezing is possible. Do not
safe storage:	store combustibles in the area of storage vessels. Keep away from any sources of
	heat or flame. Store tote and smaller containers out of direct sunlight at moderate
	temperatures. Keep containers tightly closed when not in use. Do not let product
	go below 35°F. Inspect all incoming containers before storage, to ensure containers
	are properly labeled and not damaged.
	Solutions of potassium thiosulfate solution are stored in mild steel. Product
	solutions have been successfully stored in 304 stainless steel, fiberglass,
	polypropylene and HD polyethylene. Consult with tank manufacturers to confirm
	whether a specific resin is acceptable product storage.
Incompatibilities:	Strong oxidizers such as nitrates, nitrites or chlorates can cause explosive mixtures
	if heated to dryness. Acids will cause the release of sulfur dioxide, a severe
	respiratory hazard. Potassium thiosulfate solution is not compatible with lead or
	mercury or their alloys. These materials of construction should not be used in
	handling systems or storage containers for this product.
