*Endurant Golf Course Protocol for Year Round Green
Customizable for You and Your Members*

Applications

Summer / Early Fall

Endurant Turf Enhancer (TE) the organic pigment
Greens: 8-10 oz per acre
Fairways and Tees: 16-24 oz per acre
Greens: 32 - 64 oz per acre
Fairways: 32 - 96 oz per acre

Endurant TE

Greens: 8-10 oz per acre
Fairways and Tees: 16-24 oz per acre

Endurant FLEX

Greens: 32 - 64 oz per acre
Fairways: 32 - 96 oz per acre

Endurant Fairway can be used at 1 - 3 gals per acre during transition times to enhance turf color.

Fall

Winter

Semi-dormant

Endurant FLEX

Greens: 64 - 128 oz per acre
Fairways: 64 - 128 oz per acre

Note: **Endurant Premium or Fairway** can be used at 1 - 3 gals per acre during transition times to enhance turf color. **Endurant Fairway** has a darker color, hence it can show up better at lighter rates where there is still some green color in the leaf tissue

Dormant

Bermuda / Zoysia

Greens: 2 - 6 gals per acre (**Endurant Premium**)

Fairways 5 - 8 gals per acre (**Endurant Premium or Endurant Fairway**)

Note: Depending on the location and temperature 1 - 2 applications per winter season may be necessary.

Late Winter / Early

Spring Bermuda / Zoysia

Endurant FLEX

Greens: 64 - 128 oz per acre
Fairways: 64 - 128 oz per acre

Spring / Summer

Endurant TE

Greens: 8-10 oz per acre
Fairways and Tees: 16-24 oz per acre

Endurant FLEX

Greens: 32 - 64 oz per acre
Fairways: 32 - 96 oz per acre
