## ENDURANT FOR TV-READY, TOURNAMENT-READY TURF

### Endurant Sports Turf Care Applications

#### Summer/Early Fall

**Endurant TE:** 16-24 oz per acre

**Endurant FLEX:** 32 - 128 oz per acre

1-5 oz per gal of final mix of **Endurant Spray N Stay**

#### Fall

**Endurant TE:** 16-24 oz per acre

**Endurant FLEX:** 32 - 128 oz per acre

**Endurant Fairway** can be used at 1 - 3 gals per acre during transition times to enhance turf color.

1-5 oz per gal of final mix of **Endurant Spray N Stay**

#### Winter

##### Semi-dormant

Endurant FLEX: 64 - 128 oz per acre

##### Note:

**Endurant Premium or Fairway** can be used at 3- 5 gals per acre during transition times to enhance turf color.

**Endurant Fairway** has a darker color hence it can show up better at lighter rates where there is still some green color in the leaf tissue.

##### Dormant

Bermuda/Zoysia 5 - 8 gals per acre (**Endurant Premium or Endurant Fairway**)

##### Note:

Depending on the location and temperature

1 - 2 applications per winter season may be necessary.

1-5 oz per gal of final mix of **Endurant Spray N Stay**

#### Spring / Summer

Endurant TE 16-24 oz per acre

1-5 oz per gal of final mix of **Endurant Spray N Stay**
